

BAE Systems

Women in Engineering and Technology Open Day

16.30 – 19.00, Thursday 29th June

Surrey Research Park, GU2 7RQ

On Thursday 29th June, BAE Systems will be opening our doors to celebrate Women in Engineering and Technology.

At our Guildford site we specialise in Cyber Security, Software Development and Electronic Engineering, protecting nations and businesses against Cyber threats.

Your students and their parents are invited to come join us for an insight into the different types of careers available within Engineering and Technology and how STEM subject apply to the real world. It is also a chance to meet women who currently work in a STEM career and find out about their career journey and experiences.

The afternoon will include:

- Interactive stands hosted by our Cyber and Naval Ships staff
- Female speakers – Graduate and Senior Leadership
- Interactive activities
- Information on Apprenticeships and Graduate Programmes

This event is aimed at girls between 11-18 years of age. RSVP require due to security restriction on site. Free parking available.

To book please email:
